Appl. No. 09/645,279 Amdt. Dated July 30, 2003 Reply to Office Action of May 9, 2003

## In the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Original) A method of providing a software testing service comprising the steps of: 1 2 receiving, by a service provider, at least one software component from a customer; providing by said service provider, test code for testing said at least one software 3 4 component; 5 testing with said test code said at least one software component; monitoring, by said service provider, results of said testing; and providing, by said service provider, the results of said testing to said customer. 2. (Currently Amended) The method of claim 1 further comprising the step of charging said 1 customer for providing said softwark component-testing service. 3. (Original) The method of claim 2 wherein said step of charging is performed on a per session basis. 4. (Original) The method of claim 2 wherein said step of charging is performed on a periodic basis. 5. (Currently Amended) The method of claim 1 wherein said step of receiving the at least one 2 software component is done over a network. 1 6. (Currently Amended) The method of claim 5 wherein said step of receiving the at least one l software component is done over a TCP/IP 3 network.

1

2

7. (Currently Amended) The method of claim 5 wherein said step of receiving the at least one

software component is done over the Internet.

Docket No. EMPIR-020PUS

Appl. No. 09/645,279 Amdt. Dated July 30, 2003 Reply to Office Action of May 9, 2003

1 & (Currently Amended) The method of claim 1 wherein said step of receiving the at least one

software component further comprises the step of receiving directions regarding the type of

testing to be done on said software component.

1

2

2

3

9. (Original) The method of claim 8 wherein said step of receiving directions regarding the type

of testing to be done is selected from the group consisting of functional testing, regression

testing, load testing and compliance testing.

1 1

2

10. (Currently Amended) The method of claim 1 wherein said step of receiving the at least one

software component further comprises the step of receiving directions regarding how to process

results from said testing.

11. (Original) The method of claim 1 wherein at least a portion of the results from said testing

is provided in a pass/fail format.

l

12. (Original) The method of claim 1 wherein at least a portion of the results from said load

testing are provided in a graphical format.

1

13. (Currently Amended) The method of claim 1 wherein said software component comprises

an-a software component which can be interpreted by a web browser. EJB.

1

2

14. (Original) The method of claim 1 wherein said software component comprises an

2 application.

1

15. (Original) The method of claim 1 wherein said software testing sorvice is provided as a web

2 site.

1 16. (Original) The method of claim 1 wherein said step of providing further comprises the step

2 of providing access to multiple containers for testing the performance of said software

3 component in different ones of said multiple containers.
